Snow Plows in Action

In both the rural and suburban areas, dump trucks plow and spread salt.

Public Works outfits pick-up trucks with a plow and salt spreader to clear cul-de-sacs and other side streets. Four-wheel drive is a necessity to navigate some of Boone County's hills.

Kenny Crooker monitors the storm and directs crews around the county.

Update on last two snow storms

Boone County Public works distributed 800 tons of salt during the snow storm on February 5th and 6th. The second storm in the last few days received 600 tons for the roads on February 9th and 10th. Additional tons have been ordered to fill the county's salt dome and prepare for the next storm.

Solid Waste Management "Save Green/ Go Green" Tip

Don't waste your leftover drinking water by pouring it down the sink. Instead, pour it in a nearby thirsty plant. Before leaving the bathroom or kitchen make sure that your tap is not dripping. Millions of gallons of water (and money) are wasted down the drain every day because of leaky faucets.

Water Facts - Here are examples of the water we use every day
37 gallons for the toilet
25-30 gallons for the tub
50-70 gallons for a 10-minute shower
25-40 gallons for a washing machine load
9-12 gallons for a dishwasher load

Cutting back on water usage saves energy AND it saves you money on your water and sanitation bills.

Choose to make little changes that make a big difference! If you have any questions about the Go Green program or tips, please call Kelly Chapman or Mary Dickey at 859-334-3151.

Conservation District Meeting

The Boone County Conservation District board meeting will be on Monday, February 22nd at 7 p.m. in the Kells Room of the Extension Center. The public is welcome to attend. Please call Sally Aaron at 859-586-7903 for more details.
