Emergency road aid awarded to Boone County

Money for slide repairs on Second Creek Road and Woolper Road

Burlington, KY – According to an announcement today, the Kentucky Transportation Cabinet will award \$88,700 in County Road Aid emergency funds to reimburse the Boone County Fiscal Court for a slide repair on Second Creek Road and Woolper Road.

The repairs included installation of a guard rail and improvements to stabilize the bank.

Judge Executive Gary Moore stated, “This grant will benefit many citizens in Boone County since Woolper Road is the longest County road in our system and Second Creek Road serves several local residents. The landslides that damaged these roads have been repaired and both are open to serve the public.”

Boone County Public Works administered the work.
