The occupational license tax shall be measured by **one half of one percent% (0.5%) of:**

A. all wages and compensation paid or payable in the School District for work done or services performed or rendered in the School district by every resident in the School District who is an employee; and

B. the net profit from business conducted in the School District by a resident or nonresident business entity.

2. All partnerships, S Corporations, and all other entities where income is “passed through” to the owners are subject to this resolution. The occupational license tax imposed in this resolution is assessed against income before it is “passed through” these entities to the owners.

3. If any business entity dissolves, ceases to operate, or withdraws from the School District during any taxable year, or if any business entity in any manner surrenders or loses its charter during any taxable year, the dissolution, cessation of business, withdrawal, or loss or surrender of charter shall not defeat the filing of returns and the assessment and collection of any occupational license tax for the period of that taxable year during which the business entity had business activity in the School District.

4. If a business entity makes, or is required to make, a federal income tax return, the occupational license tax shall be computed for the purpose of this resolution on the basis of the same calendar or fiscal year required by the federal government, and shall employ the same methods of accounting required for federal income tax purposes.

5. The occupational license tax imposed in this section shall not apply to the following persons or business entities:

### **§ 3 - Apportionment**

1. Except as provided in subsection (3) of this section, net profit shall be apportioned as follows:

A. For business entities with both payroll and sales revenue in more than one (1) tax district, by multiplying the net profit by a fraction, the numerator of which is the payroll factor, described in subsection (2) of this section, plus the sales factor, described in subsection (3) of this section, and the denominator of which is two (2); and

B. For business entities with sales revenue in more than one (1) tax district, by multiplying the net profit by the sales factor as set forth in subsection (3) of this section.

C. For the purpose of subsections (1) thru (4) of this section, the business entity shall file an apportionment form provided by the Administrator.

2. The payroll factor is a fraction, the numerator of which is the total amount paid or payable in the School District during the tax period by the business entity for compensation, and the denominator of which is the total compensation paid or payable by the business entity everywhere during the tax period. Compensation is paid or payable in the School District based on the time the individual's service is performed within the School District.

3. The sales factor is a fraction, the numerator of which is the total sales revenue of the business entity in the School District during the tax period, and the denominator of which is the total sales revenue of the business entity everywhere during the tax period.

A. The sale, lease, or rental of tangible personal property is in the School District Board if:

i. The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within School District regardless of the f.o.b. point or other conditions of the sale; or

C. Sales revenue from the sale, lease, or rental of real property is allocated to the tax district where the property is located.

4. If the apportionment provisions of this section do not fairly represent the extent of the business entity's activity in the School District, the business entity may petition the Board or the Administrator, in respect to all or any part of the business entity's business activity, if reasonable:

A. Separate accounting;

B. The exclusion of any one (1) or more of the factors;

C. The inclusion of one (1) or more additional factors which will fairly represent the business entity's business activity in the School District; or

D. The employment of any other method to effectuate an equitable allocation and apportionment of net profit.

5. When compensation is paid or payable for work done or services performed or rendered by an employee, both within and outside the School District, the occupational license tax shall be measured by that part of the compensation paid or payable as a result of work done or service performed or rendered within the School District. The license tax shall be computed by obtaining the percentage which the compensation for work performed or services performed within the School District bears to the total wages and compensation paid or payable. In order for the Administrator to verify the accuracy of a taxpayer's reported percentages under this subsection, the taxpayer shall maintain adequate records.

#### **§ 4 - Employers to Withhold**

1. Every employer making payment of compensation to an employee shall deduct and withhold from the compensation an occupational license tax calculated under Section (3) of the Resolution.

If the employer withholds, but fails to pay the amounts withheld to the Board, the lien shall commence as of the date the amounts withheld were required to be paid to the Board. If the employer fails to withhold, the lien shall commence at the time the liability of the employer is assessed by the Board.

5. Every employer required to deduct and withhold tax under this section shall annually on or before February 28 of each year complete and file on a form furnished or approved by the Administrator a reconciliation of the occupational license tax withheld where compensation is paid or payable to employees. Either copies of federal forms W-2 and W-3, transmittal of wage and tax statements with the Board taxable wages and withholding, or a detailed employee listing with the required equivalent information, as determined by the Administrator, shall be submitted.

6. Every employer shall furnish each employee a statement on or before January 31 of each year showing the amount of compensation and occupational license tax deducted by the employer from the compensation paid to the employee for payment to the Board during the preceding calendar year.

No person shall be personally and individually liable under this subsection unless such person had authority to collect, truthfully account for, or pay over the tax imposed by the Resolution at the time that the taxes imposed by the Resolution become or became due.

9. Every employee receiving compensation in the School District subject to the occupational license tax shall be personally liable for the tax notwithstanding the provisions of subsection (7) and (8) of this section. In all cases where the employer does not withhold the tax levied under the Resolution from the employee, such employee or employees shall be responsible for filing with the Administrator each quarter in the same manner as if they were the employer. If an employer fails to or is not required to withhold, report, or pay the occupational license tax it shall become the duty of the employee to file with the Administrator. The only employer that is not required to withhold, report, and pay the occupational license tax is the Federal Government including the United States Postal Service. The payment is required to be made by an employee, can be made quarterly, for the periods ending March 31st, June 30th, September 30th, and December 31st of each year or at any time the employee wishes to make an estimated payment for the year in which wages are earned. All occupational license taxes must be received by February 28th for the preceding calendar year, together with a copy of the employee's W-2 form. Employers not required to withhold, report, or pay the occupational license tax must annually during the month of January of each year, make a return to the Administrator, in which is set forth the name and social security number of each employee of the employer during the preceding calendar year, giving the amount of salaries, wages, commissions or other compensation earned during such preceding year by each such employee.
