ALCOHOL BEVERAGE SALES DEDUCTION

There is no occupational tax assessed on the net profit earned from the sale of alcoholic beverages in Kentucky and to the extent that a licensee's net profit is derived from the sale of alcoholic beverages within Kentucky, thus a deduction may be taken from the Licensee's total net profit derived from all sources. A deduction may be taken only if the business engaged in selling alcoholic beverages had a profit.

Divide the total Kentucky alcoholic beverage sales by the total gross receipts of the business, including non-alcoholic beverage sales.

Divide the total Kentucky alcoholic beverage sales by the total gross sales of the business, including non-alcoholic beverage sales, to calculate the alcoholic beverage percentage.

Multiply the alcoholic beverage percentage to Line 13, minus the sum of Line 14, 16 and 17 from the Adjusted Business Income Calculation on page 2 of the Net Profit Tax Return.

Line 16 Other Adjustments. A copy of the schedule or a statement that verifies the adjustments taken must be included with the Net Profit Tax Return. If the required back up documentation is not received the adjustments will be disallowed.

Items that would be included on this line are as follows:

- a) An adjustment for business expenses which is elected by the taxpayer as a credit against federal income tax liability in lieu of a deduction for business expenses otherwise available to the taxpayer. Some of them include:
 - a. If wages and salary expense are being reduced as a result of the new jobs or win credit
 - b. If the depreciable basis of an asset was reduced by the amount of investment credit claimed, then ACRS depreciation may be taken on that basis reduced over the life of the asset.
- b) An adjustment for the total deduction for dividends paid and the Section 857 (b) (2) (E) deduction. (Note: This amount is the distribution of income to the owners. Since the occupational license fee is not assessed on the owners, the amount must be added back to taxable income.
- c) Ordinary income from other partnerships or S Corporations which is included in income on Line 7 or Line 9 of Page 2 Calculation of adjusted business income that has already been taxed by Boone County can be deducted. Please note the name of the entity and the Boone County account number for the pass through entity.
- d) Non-Taxable Income. Corporate taxpayer may deduct, if substantiation is provided by including a completed copy of Schedule C of the Federal Form 1120, the following amounts (net of the deductions properly allocated thereto) without proof of non-unitary source.**
- e) An adjustment for income from foreign sources. Taxpayers may deduct the following amounts without proof of non-unitary source:
- f) Foreign dividend gross-up under Section 78 of the Internal Revenue Code

- g) Income from controlled foreign corporations under subpart F, not actually received.
- h) Other dividends from foreign corporations.
- i) Interest earned on US Obligations

Line 17 – If a partner incurs out-of-pocket expenses in connection with providing services to a partnership, those expenses are deductible on the partner’s individual tax return if the partnership agreement states in writing that the partner pay the expenses. If the partner has the right to be reimbursed, but fails to obtain reimbursement, the partner is not entitled to the deduction. The out-of-pocket expenses are deducted on the partner’s individual return, Schedule E, Part II, column (i). If the partner is allowed to deduct the expenses on their individual return, then a deduction is permitted on their local occupational license return. Attach a schedule detailing these expenses.

Line 18 – Total Deductible items – add lines 14 through 17

Line 19 – Adjusted Net Business Income – Subtract Line 18 from Line 13 – if the amount is a loss enter zero as the adjusted net business income.

Computation of Apportionment Percentages

- 1) If 100% of the business is conducted in Boone County, enter 100% on Line 22.
- 2) All licensees whose business operations were not conducted entirely in Boone County must complete Lines 20 through 25, regardless of profit or loss.

Sales Factor

Line 20, column a: Enter the total gross receipts from sales, rents, services in the ordinary course or usual trade of business earned within Boone County during the period covered by the return.

Line 20, column b: Enter the total gross receipts from sales, rents, and services in the ordinary course of usual trade of business earned everywhere during the period covered by the tax return. Note: This amount equals the “gross receipts less returns and allowances” as reported on the federal income tax return. If the taxpayer’s principal business within the locality is rental income, then the amount would include the total gross rents as reported on Federal Income tax return. This amount does not include interest, dividends, or sale of business property. If the taxpayer’s principal business is the sale of property, then the sales are reported in the “gross receipts” amount for Federal Income tax purposes. Income as reported on the Federal Form 4797 is from casual sales, not from the ordinary trade or business and should not be considered in determining the Gross Receipts factor.

Payroll Factor

Line 21, column a: Enter the total compensation paid to employees for services rendered in Boone County during the period covered by the return. This amount should equal the amount of Total Gross Earnings reported on the quarterly payroll withholding returns. Sometimes a difference is noted due to the accrual accounting process. In this situation, the auditor would request the taxpayer to submit a reconciliation of the difference.

Line 21, column b: Enter the total compensation paid to employees for services rendered everywhere during the period covered by the tax return. It would not include guaranteed payments to partners deducted on Federal Form 1065 because partners are not considered employees.

Line 21, column c: Divide column a by column b. Enter the result on Line 21, column c.

Line 22, column c – Add column C, Lines 20 and 21. Enter the result on Line 22, column c.

Line 23 – Divide Line 22, column c by the number of percents used on lines 20 and 21, column c. Enter the result on Line 23, column c. If both Lines 20b and 21 b are greater than zero, divide the entry on Line 22 by 2. If either Line 20b or 21 b is zero, enter the amount from Line 22 on Line 23, column c.

Line 24 – Multiply Line 19 by Line 23c and enter it on Line 24, column c.

Please check if you want your overpayment applied as a credit to next year's net profit tax return or refunded. The County will not refund any overpayments under \$25.00 and will automatically apply the amount to the next years estimated payments. Boone County will waive this requirement if a taxpayer has ceased operation and has filed a closure form with our office.
